

The Construction App Built for the Field

Raken is the construction app designed with the field in mind, bridging communication between the **jobsite and the office**. Raken streamlines field management with a user-friendly mobile platform for capturing photos and tracking safety, tasks, time cards, and more. This data is showcased in branded, professional daily reports and summaries as well as real-time dashboards that give offsite stakeholders insights to help them **reduce risk, manage budgets, and improve their bottom line**.

DAILY REPORTS

Complete professional daily reports in minutes

SUPER DAILY™

Automatically gather and collate subcontractor daily reports

TIME CARDS

Track time and budgeted hours with easy payroll exports

TOOLBOX TALKS

Browse and bulk schedule talks, then digitally capture signatures

PHOTO MANAGEMENT
